Introduction

- Seylan Freight is a service oriented limited liability company established and registered two decades ago in the Kingdom of Swaziland with a vision to create a first class integrated logistics service structures and other business solutions. While various services are being offered, our core business is to provide an efficient logistics related services with logistic follow up work for you and your company needs.
- To provide domestic and global logistics solutions to the import and export trade, we have the ability to handle all aspects of the Customer's logistics needs. We offer an extensive range of services including clearing and freight forwarding, all courier requirements, Consultancy services for international trade, Airfreight, Domestic Transport and Warehouse facilities.
- In order to provide this kind of service that not only ensures the retention of our customers but also attracts others, we have established partnerships with some of the most reputable companies in the service industry in South Africa, Asia, Europe and US.
- Seylan Freight has a dedicated team of experts working around the clock to make sure that our customers get the best contacts, information, business management and marketing talent for their business cycle.

Goals and Values

Vision

To become the most preferred Freight Company in Swaziland.

Mission

Expanding investments and providing a quality service to our clients with the intention of contributing to the economic development of the Kingdom of Swaziland.

Our Values

- Ethical and transparent in all our dealings.
- Treating everyone with respect.
- Caring for the communities in which we work and support their growth.
- Achieve a healthy rate of growth and profitability.
- Maintain good employee relations.
- Working with each other and with our partners across boundaries to make things happen.

What We Do

Logistics

- Seylan Freight Pty Ltd. aims to become a major player in the logistic sector through its experienced and committed staff.

Standard or Controlled Storage and lay-down services including special handling using special equipment

Project management, down to the smallest details of your project move. Exceptional attention to all regulatory compliance issues, safe operations, and the protection of the environment

Subject matter experts to ensure excellent planning and fine tuning of scope of work during pre and post-project period

ON-SITE /CONTRACT LOGISTICS

- Our on-site logistics expert team is highly flexible and exposed to various industrial verticals offering on-site logistics services.
- We are always ready to help you if you are planning to build a comprehensive international supply chain, or simply need to manage a seasonal inventory upsurge.
- Our Contract Logistics includes fully integrated services related to warehousing, distribution, last-mile delivery and order fulfillment. Our team is capable of designing and delivering scalable solutions to your Individual business needs.

Success Factors

Our achievements are measured on the key success factors which are compulsory for us to survive and develop this business on freight and related services.

Continuous feedback

- We are always in dialogue with our clients in a formal and informal manner to make sure we “do things first time right” for them and they are happy with the final outcome.

Feed forward planning

- While we learn from the past, we attempt to predict the future and plan so that the company remains as stable with changing economy.

Long term relationship building

- We concentrate more on our clients who are interested in long term relationships. Our aim is to become a part of their day to day operations on freight and related services.

Consultative role

- Always we lead a role of a consultant, rather than just being a freight service provider. We always look at the cost benefit aspects for our clients and make sure they get the benefit at the end of the day.
